Report on,

NATIONAL SEMINAR ON RECENT TRENDS IN AGRICULTURE

Maratha Mandal Arts and Commerce College Khanapur, a renowned educational institution in Karnataka, organized a national seminar on "Recent Trends in Agriculture" on 10th March 2023. The seminar aimed at discussing the latest trends and developments in agriculture and promoting sustainable agricultural practices. The seminar also included the presentation of the Negilayogi awards to farmers for their outstanding contribution to agriculture.

Program details:

The program commenced with the holy presence of Poojya Shri Channabasav Devaru, followed by the welcome address by the Director of the conference, Prof Vijaylaxmi Tirlapur. The keynote speaker for the seminar was Prof SG Sonnad, who delivered a comprehensive talk on recent trends in agriculture, highlighting the importance of sustainable and eco-friendly practices.

The seminar President, Dr J K Bagewdi, presented an overview of the seminar's objectives and Prof V M Tirlapur introduced the chief guest, Prof J B Anchi, an eminent teacher, who spoke on the challenges and opportunities in modern agriculture.

Dr I M Gurav provided the introductory words, highlighting the importance of sustainable agriculture and the role of farmers in shaping the future of agriculture.

The program director, Dr R S Tirvir, gave a brief overview of the Negilayogi awards and introduced the farmers who were awarded for their outstanding contribution to agriculture. The awards were presented to the farmers by Channabasava Devaru.

The program concluded with the vote of thanks by Prof Y S Dhabali, who thanked all the guests, speakers, and participants for making the program a success.

Impact of the program:

The national seminar on "Recent Trends in Agriculture" and the presentation of the Negilayogi awards had a positive impact on the participants, particularly the farmers. The seminar provided them with valuable insights into the latest developments in agriculture and the importance of sustainable practices. The award ceremony recognized the contributions of farmers to agriculture and motivated them to continue their good work.

Conclusion:

In conclusion, the national seminar on "Recent Trends in Agriculture" and the Negilayogi awards ceremony organized by Maratha Mandal Arts and Commerce College Khanapur was a commendable initiative to promote sustainable agriculture and recognize the contributions of farmers. The program provided valuable insights into the latest trends in agriculture and highlighted the importance of sustainable practices for a better future. Such initiatives are essential to promote sustainable agriculture and motivate farmers to continue their good work.

*Benefits and challenges of new policies to the
businessmen*

We live in rapidly changing times, especially for businesses. Consider that, in a single generation, businesses have had to adopt to entirely new marketing channels (web and social), decide how to invest in and utilize new technologies, and compete on a global stage- things that were barely imaginable to our parents and grandparents generations.

One side effect of these rapid changes and growth is that no single CEO – or any employee, for that matter – can be an expert in everything. This was perhaps, always true, but it has never been more apparent.

This is why in my opinion some of the biggest challenges businesses face today are best met and addressed with qualified consultants. Bringing on a consultant helps CEO add the expertise and skills they need to address particular problems at particular times, and can provide the best possible outcomes.

Just few of the challenges I see businesses facing that are best addressed with the help of a consultant include:

CHALLENGES –

1. Uncertainty about the future.
2. Financial management.
3. Monitoring performance.
4. Regulation and compliance.
5. Competencies and recruiting the right talent.

BENEFITS OF THE NEW POLICY OF BUSINESSMEN

For many businesses, growth signals success. It creates new opportunities, brings in more customers and generates greater profits.

Possible the greatest competitive advantage of business growth is the ability to capitalize on the economies of scale. As you increase your production output, you can bring down costs per unit and achieve savings across.

- ❖ Purchasing- by getting discounts for buying in bulk
- ❖ Marketing- by spreading the cost of promotion over larger sales
- ❖ Overheads- by administrative costs across a greater output.

BUSINESS GROWTH CAN ALSO ENABLE YOU TO;

- ❖ Increase your resources and stock
- ❖ Generate more sales and profits
- ❖ Reach new customer or markets
- ❖ Put more money back into your business
- ❖ Influence market price
- ❖ Reduce external risks

IMPACT OF DEMONETIZATION ON BUSINESS

INTRODUCTION :

Demonetization is an essential part of changing the old currency unit to new one. It occurs whenever there is a change of national currency. Before going to the topic deeply, we must have a clear idea about the concept of demonetization on November 8th 2016, India's prime minister made an unscheduled announcement to the nation that all the RS.500 and RS.1000 bank rupee notes as invalid. It is effective from the midnight on the same day. The new issue of RS.500 and RS.1000 bank notes of Mahatma Gandhi series in exchange of old notes. There are many reasons for this why the government of India suddenly took the decision to demonetize there local unit of currency. The major reason for this is to eradicate inflation, corruption and other crimes, tax evasion, counterfeiting, to discourage the cash dependent economy and to facilitated trade (said by our prime minister Narendra Modi)

POSITIVE IMPACT ON DEMONETIZATION:

World bank chief executive officer kristalina Ivanova Georgieva said in Hindustan times : that prime minister of India's idea of ban high value currency denomination will have a positive impact to wash out the corruption in the nation. She also said that this move caused some difficult for the people to live in cash flow economy at present, but it will make a free independent, clean and modern digitized economy. She compared the demonetization of prime ministers decision with European Union, which is facing high denomination bill over a long time. She also said that it will help the financial inclusion programmes, digital payments and direct subsidies to help the poor. She appreciated that India is bright country in today's global economy and she visited the biggest slum area people there willing to pay more for improved services and better live. She also said that people have much aspirations here. On Nov 8th ,2016 mid night our country lost nearly 86% of its monetary base due to sudden announcement made by our prime minister that all the RS.500 and RS.1000 notes are invalid.

ADVANTAGES OF DEMONETIZATION

- ❖ It helps the government to destroy corruption, tax evasion and black money.
- ❖ It helps to slow down the unaccounted cash which was kept by the public in their bank accounts.
- ❖ It helps to put an end to the people who involve in doing ill legal activities such as gambling and had an idea to earn black money, and use it for some other purpose as savings, or put it in other major investment such as gold, real estate and involve in other unwanted social evils.
- ❖ The biggest benefit of demonetization is that people deposit their other income in bank accounts, this is used to provide a good amount of tax, infrastructure, hospitals educational institutions an many facilities for the poor and helps for the betterment of the society.
- ❖ People deposited more than 3 lakh crore rupee in their bank accounts this helped the government in order to eliminate the parallel economy.

DISADVANTAGES OF DEMONETIZATION

- ❖ It mainly affects people in rural areas where there is a lack of ATM machines, people have to stand in long queues in front of banks and ATMs to withdraw money for their daily needs.
- ❖ It affects small businesses and farmers, causing them to incur huge financial losses temporarily.
- ❖ The new 2000 Rs notes look like toy notes, whereas old notes are really superb and attractive by nature.
- ❖ The two series of currency notes should not be changed at the same time, as per the RBI Act, 1934, so it is an illegal activity.
- ❖ It is illegal to use Devanagiri numerals in notes instead of using the Devanagiri script.

Theme: "Keys to Become Successful
Entrepreneur".

Principal
Maratha Mandal's
Arts & Commerce College
Khanapur, 591302 Dist, Belgaum

INTRODUCTION:

Becoming a successful entrepreneur doesn't happen by accident or by chance. It is a long process that involves strategies, characteristics & quality of a person who wants to become a successful entrepreneur.

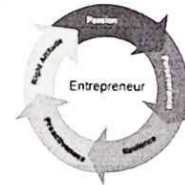

Madan palival who is a successful entrepreneur in his state says "becoming a successful entrepreneur is not an easy task! There are certain qualities & stages that are absolutely necessary if you would like to become a successful in your business venture ". Madan palival's example show's that how some characteristics, qualities & strategies support to become a successful entrepreneur. An entrepreneur organize different types of industries right from inception has different approaches & call for an In-depth knowledge base. The important is that the Entrepreneur starts & operates his own business.

Becoming a successful entrepreneur doesn't just happen overnight; but you'll find the following ways are typical in the majority of businessman that have navigated their way to the top:-

1 Get gritty:

Grit is perseverance. Grit is the go-get-'em attitude that we expect of entrepreneur. Grit is the ability to keep working when everyone tells you that you should give up.

If you want to be successful entrepreneur, you have to be gritty. Honestly, without hard work & perseverance, you're not going anywhere in the Entrepreneurial world.

2 Change yourself:

If you want to be a successful entrepreneur, you have to challenge yourself. No one else is going to push you. So it's up to you to do it.

Challenges keep entrepreneur nimble & on their toes. If you're constantly looking for the next challenge, you' will always be prepared for what comes your way.

Challenging yourself with new & difficult task will make your other tasks seem even simple. Just like the 10 -pound weight feels light after you lift a 20 pound weight. As an entrepreneur, you always have to be looking for the next big challenge.

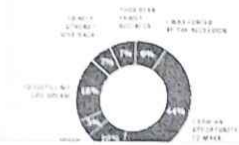

3 Be passionate:

If you don't love what you do, don't do it. When you're passionate about what you do, putting in the long hours won't feel like a sacrifice anymore.

Have you ever noticed this entrepreneur who never seems to get tired? Those entrepreneurs who get that gleam in their eye when they talk about what they do? ... That's passion.

Forty-four percent of entrepreneurs started their business they saw an opportunity to create something great. They are passionate about their business.

4 Take risks:

Humans are generally risk averse, but part of being an Entrepreneur is recognizing the risks that you should take.

Successful entrepreneurs take risks. It's part of the job. Successful entrepreneurs also know which risks taking & which they shouldn't learn to recognize the risks that will benefit your business & take them.

Taking risks has a dangerous side, but the opportunities they present often outweigh the potential dangers. Learn how to be a successful entrepreneur.

5 Trust yourself :

Your ability to trust & believe in yourself will show you confidence. People are more likely to follow & trust confident leaders.

There's nothing wrong with asking for the help when you need it for turning to a mentor for advice, but you also have to learn to trust yourself & your own judgment without input from others.

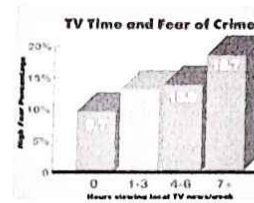

6 Reduce fear:

Fear stops action. Entrepreneurs have to be able pivot & quickly take action when they see an opportunity or recognize a mistake. With fear riding on your shoulder; you won't be a successful entrepreneur

Research has shown that the more crime TV that you are to fear crime. Reduce your fear by changing your perspective.

Find the ways to reduce & manage your fear and you'll be a much more successful entrepreneur.

7 Visualize goals:

When I recommended that entrepreneurs visualize their goal, I don't intend for them to close their eyes see the goal in front of them.

8 Hire great partners:

Successful entrepreneurs aren't successful within a vacuum. We all have a great team & support network behind us. But when choosing your partners & team members. Always remember that you can teach skills, but you can't teach character.

Conclusion:

Basically, an individual needs to learn & sharpen his or her entrepreneurial skills in order to become a successful entrepreneur. Besides an individual also must have a good personal qualities that are demanded to become a successful entrepreneur. The examples of the entrepreneur's traits are full of determination, not afraid to take risk, high level of confidence, crave learning, understands failure, highly adaptable, good understanding of money management, expert in networking, ability to sell & promote. In fact there are lot of entrepreneur traits that are available that can lead an individual to become successful entrepreneur. In addition this kind of entrepreneur traits are the main value that need to be learned, followed & applied by each individual or in order to become successful entrepreneur. Thus without any doubt, each individual or entrepreneur needs to learn & apply the selected entrepreneur traits in order to achieve success in the Interpreurial field.

REPORT ON FOOD COOKING FEST CUM CONTEST

The one day state level food cooking fest cum contest festival which was held at Maratha Mandal's Arts and Commerce College, Khanapur on 09th April 2019. This was the first year of the festival in this theme and the festival attracted many students. This fest was jointly organized by Department of Commerce and Hotel Management Association under the guidance of Principal Prof. S. G. Sonnad. Department of Commerce organizes such many events in the college campus to improve the skills of students. Dr. J. K. Bagewadi is the head of the commerce department and Hotel Management Association is the short term course which runs in the first term of academic year along with many other short term courses. Prof. S. S. Padhye and Prof. P. G. Bhatkande are the coordinator of Hotel Management course.

The festival was aimed at grooming the leadership and entrepreneur skills of the students and give them exposure to display their passion in culinary. The students are undergraduates of different stream are not culinary experts but young and enthusiastic foodies who had set up various stalls selling food ranging from regional, fusion and street food. The festival reflected the choice of food for the young crowd which was mostly regional fast food.

In the inauguration function Principal Prof. S. G. Sonnad was the President, Prof. V. M. Tirlapur department of English of Maratha Mandal's Arts, Commerce, Science and Home Science Belgaum was
